

# SLIDE-FLASH™

## Free-Standing Flash Cure Unit with Retracting Radiant Panels

### Standard Features

- Efficient flash-curing for any textile printing operation
- Retractable radiant heat panel prevents scorching
- High-density panels for even heat distribution
- Caster-mounted for easy mobility and positioning
- Separate temperature control and dwell timer
- Infra-red or quartz models available
- Quartz models provide faster power up, faster heating, and faster curing
- Integrates seamlessly with A.W.T.'s popular Econo-Tex™ Automatic and Print-Tex™ systems

A.W.T.'s versatile Slide-Flash™ free-standing flash cure unit delivers efficient, controllable curing for

plastisol and other textile printing inks and features automatically-retracting radiant heat panels to prevent over-drying or scorching.

Slide-Flash units are caster-mounted for easy positioning at any station in your textile printing operation. This mobility facilitates quick setups. Radiant heat panels operate on an operator-controlled dwell timer. After flash-curing the printed image, they retract horizontally to prevent scorching.

Integrated controls allow operation of the Slide-Flash from the control panel of our Econo-Tex™ Automatic or Print-Tex™ units or, for operator convenience, the Slide-Flash's dwell timer and temperature can be set on the remote control panel. Available quartz models provide faster curing, faster power-up, and maximum temperatures are reached within seconds.

### Specifications

CAT NO.	TYPE	DESCRIPTION	ELECTRICAL
FC-1618	Infra-red	Slide-Flash Flash Cure Unit, 16 x 18"	220 V, 1 Ph, 60 Hz, 35 A
FC-1822	Infra-red	Slide-Flash Flash Cure Unit, 18 x 22"	220 V, 1 Ph, 60 Hz, 42 A
FC-2436	Infra-red	Slide-Flash Flash Cure Unit, 24 x 36"	220 V, 1 Ph, 60 Hz, 80 A
QFC-1618	Quartz	Slide-Flash Flash Cure Unit, 16 x 18" with instant on/off	220 V, 3 Ph, 60 Hz, 30 A
QFC-1822	Quartz	Slide-Flash Flash Cure Unit, 18 x 22" with instant on/off	220 V, 3 Ph, 60 Hz, 36 A
QFC-2436	Quartz	Slide-Flash Flash Cure Unit, 24 x 36" with instant on/off	220 V, 3 Ph, 60 Hz, 78 A
QFC-3054	Quartz	Slide-Flash Flash Cure Unit, 30 x 54" with instant on/off	220 V, 3 Ph, 60 Hz, 145 A

# THE A.W.T. WORLD TRADE GROUP

*Combining state-of-the art engineering expertise and creativity  
with outstanding customer service to provide quality, consistency, and value  
to the screen printing industry for more than 40 years*

The A.W.T. World Trade Group offers screen printers a complete manufacturing source for machinery, parts, supplies, accessories, and remanufactured equipment. A.W.T. develops comprehensive systems that work efficiently and economically to avoid printing errors, reduce production downtime, and keep your operation profitable. Experience has shown that utilizing a single manufacturing source greatly reduces potential equipment incompatibility issues.

Our experienced sales, engineering, and technical support personnel will assist you in selecting the optimal screen printing system and equipment for your company's particular needs, or with ordering supplies and accessories from our extensive inventory.
